

LUCKY 13, YOU GOT LUCKY ! AT LAST ! AND ALL YOU WANT TO DO NOW IS HIT THE ROAD TOGETHER WITH YOUR NEW DATE ! SOME EXTRA ADVICE STILL MIGHT BE HELPFUL THOUGH...

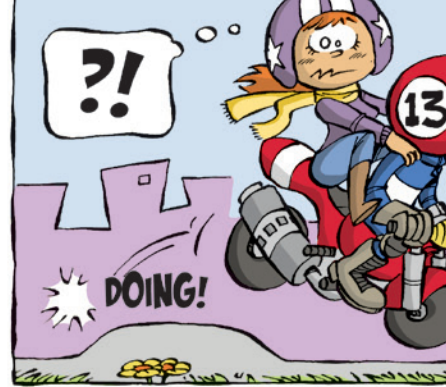

AT RISKY POINTS, YOU'LL COME ACROSS A VARIETY OF TRAFFIC CALMING MEASURES THAT ARE DESIGNED TO REDUCE YOUR SPEED...

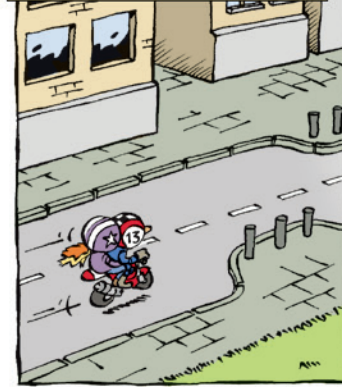

FOR EXAMPLE ROAD BUMPS, WHICH ARE NOT ALWAYS BUILT ACCORDING TO SAFETY STANDARDS...

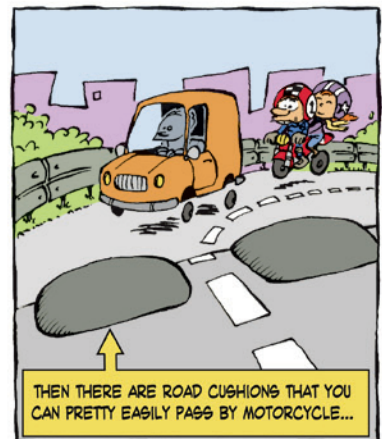

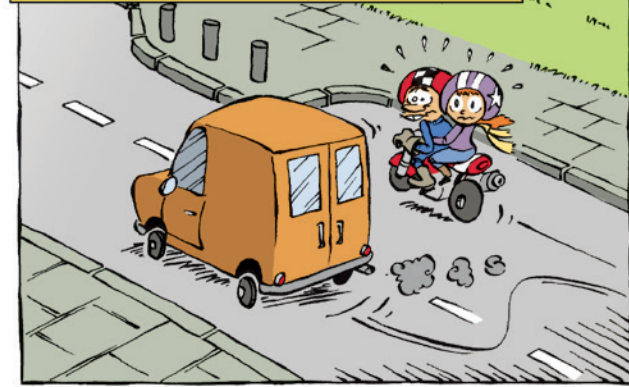

...SO, TO BE SAFE, ALWAYS APPROACH THEM AT REDUCED SPEED...

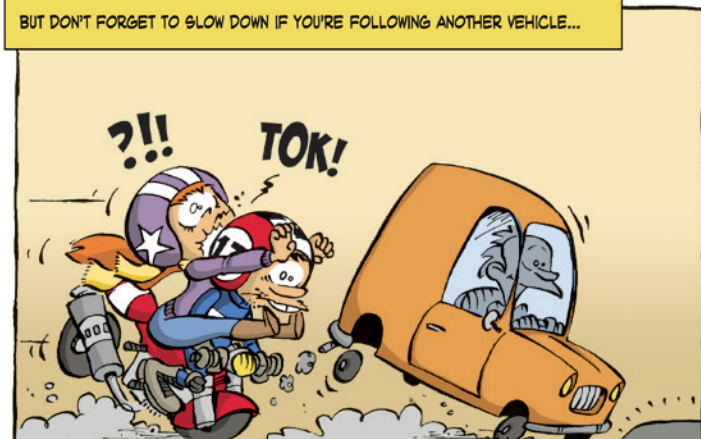

ALSO WATCH OUT AT CHICANES AND PINCH POINTS...

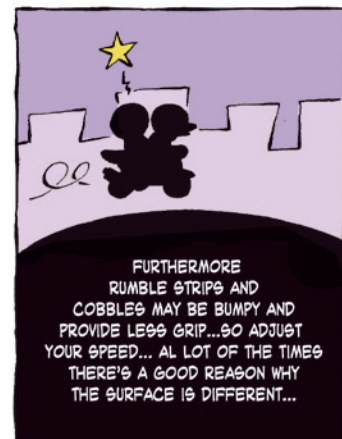

SOMETIMES A CAR WILL TRY TO OVERTAKE YOU UNAWARE OF THE RESTRICTION AHEAD...

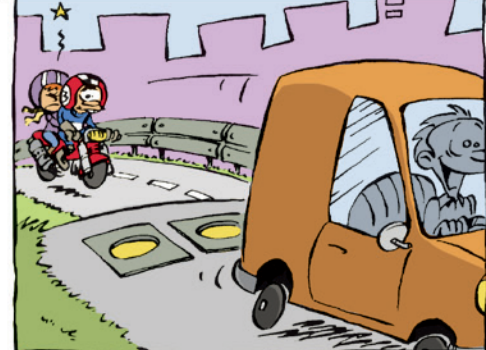

THEN THERE ARE ROAD CUSHIONS THAT YOU CAN PRETTY EASILY PASS BY MOTORCYCLE...

BUT DON'T FORGET TO SLOW DOWN IF YOU'RE FOLLOWING ANOTHER VEHICLE...

FURTHERMORE RUMBLE STRIPS AND COBBLES MAY BE BUMPY AND PROVIDE LESS GRIP...SO ADJUST YOUR SPEED... A LOT OF THE TIMES THERE'S A GOOD REASON WHY THE SURFACE IS DIFFERENT...

A 'TRICK' HAZARD IS A MECHANICAL GATEWAY. THESE METAL POSTS DROP INTO THE GROUND TO LET BUSES AND OTHER AUTHORISED VEHICLES THROUGH...

...AND THEN POP UP AGAIN AFTERWARDS...

...SO, FOR GREAT RIDES, ALWAYS BEAR THIS ADVICE IN MIND !
